Capital Stock \$250,000

About 200,000 Shares Will be Issued, The Balance Will Remain in The Treasury

On October 3, Mr. George Halmhuber, Cashier of the People's State Bank at Frankfort, with Judge James H. Polsgrove visited the property of this Company. Pumping of well No. 2, on what is known as the "Gillispie Lease," was in progress. It pumped more than 30 barrels in five hours. This is not their best well.

A prominent Franklin County Farmer made an inspection personally of this property, and bought a thousand shares. This is the proper method. See what you are investing your money in. A representative of the company will go with you any time you may desire and show over this property and let you see what it will produce.

All five wells will be pumping Wednesday, and we are advised that they will fill a 250 barrel tank each day. At this rate the company would pay a dividend on these five wells alone, of more than twenty per cent, and operate only half the time. Figure it out for yourself. Well No. 6 will come in Monday, October 29, and it will be just as good as the others.

PAN-AMERICAN OIL COMPANY PROVES VALUE OF ITS HOLDINGS

Those interested, who are doubtful about what has been represented, are urged to visit this property for a personal inspection.

Every man who has seen it will recommend its stock a safe investment. Ask them.

Every prospective investor who has gone and looked at it, came back satisfied and put his money in it.

About twenty thousand shares more of this stock will be sold immediately for the perfect legitimate purpose of purchasing additional leases and increasing our holdings, and we know where they are.

We will be selling oil this month, but if we wait for the proceeds from the sale of oil, we may lose the other property we are after.

Here is what we already have:

(1) 80 acres of land in Estill county, in the Fitchburg District, 12 miles N. E. of Irvine, adjoining the property of the Federal Oil Company on the

East and North (with several producing wells where pumps have been running for more than a year), and by the Consolidated Oil Company on the South (where several wells are also being pumped.)

(2nd) Five wells, within a minimum capacity of twenty-five barrels each per day (to be very conservative) already connected up with the Cumberland Pipe Line Company, which runs all the way through our lease.

(3rd) Locations for eleven more wells. No. 6 now well under way.

(4th) Crude oil engine installed and in operation, a sufficient power for pumping twenty wells, two 250 barrel tanks, all necessary casing and other equipment on the grounds for the winter.

With crude oil selling at \$2.40 a barrel, and going up, with steamships and battleships using oil for fuel, with gasoline selling at 75 cents a gallon in England, \$1.25 in Paris (and each consumer limited at that) and at 29 cents in America, where is there a better prospect for large dividends on a small investment?

THIS WEEK

Has been designated by our President and National Food Commissioner as **FOOD CONSERVATION WEEK** and as Dr. Telford said in making the announcement in his church Sunday, we feel that it is the duty of every one to comply with any request of the government in using our resources to the best advantage of ourselves and our allies.

Therefore, we will, during this week, let each customer have only \$1.00 worth of Sugar and ask them to make it go as far as possible and thus, in a way, assist to relieve the present sugar situation and also carry out the wishes of our President.

NOW—Since the fair is over, and while the weather was not the best, still the attendance was good, and all seemed to enjoy themselves, we want to call your attention to the fact that we are still doing business at the same old stand, and can still give you mighty good prices on a number of articles. For instance,

**Wire Fencing, Shoes,
Mens' Hats, Soaps,
Flour**

and when we say Flour, we mean the best—**MARY, LEADER and PERFECTION**—and a good many other things that we cannot mention in this short space.

AND REMEMBER—We buy all kinds of country produce and will pay you either in cash or merchandise. Give us a call and get our prices anyway.

The Indiana woman suffrage law is held to be unconstitutional by the Indiana Supreme Court on purely constitutional grounds.

Jonas Angel, negro convict at Ed-dyville penitentiary, was shot and killed by a guard. The guard was exonerated by the coroner of Lyon county.

VINOL CREATES STRENGTH

Positive—Convincing Proof

It is all very well to make claims, but can they be proven? We publish the formula of Vinol to prove the statements we make about it.

By Cod Liver and Beef Peptones, Iron and Manganese Peptonates, Iron and Ammonium Citrate, Lime and Soda Glycophosphates, Cascaria.

Any doctor will tell you that the ingredients of Vinol as published above, combine the very elements needed to make strength.

All weak, run-down, overworked nervous men and women may prove this at our expense.

There is nothing like Vinol to restore strength and vitality to feeble old people, delicate children and all persons who need more strength.

Try it. If you are not entirely satisfied, we will return your money without question; that proves our fairness and your protection.
